MILITARY FAMILY LOCATOR INFORMATION

The Family Programs Offices for all military service branches have partnered to set up a Military Family Locator website and call center that will allow military families to submit their information on their whereabouts and situations. The call center will be staffed 24x7 by representatives of all service branches. The website URL is <http://www.militaryfamilylocator.org> where families can enter data to be forwarded to service members. This information will be used by Family Program staffs that are managing service member inquiries regarding the status of the families and loved ones. The system may also work in reverse. In other words, a deployed service member may call the Service phone number below and inquire about the status of his family members. If the family members have provided information, the Service will provide that information to the Service member. If not, the service member will probably be referred to the Red Cross or other appropriate point of contact.
